

Work Related Injury Procedure:

After the Incident:

1. Notify your supervisor and/or Human Resource Department immediately following the injury/illness. It is imperative your employer knows an incident has occurred, even if medical treatment is not necessary.
2. If able, complete any necessary paperwork regarding the incident. You can also do this following medical treatment. This should be discussed with your supervisor and/or Human Resource Department.
3. Seek medical treatment for your injury/illness. The State of Idaho has designated St. Luke's Occupational Health as one of their preferred providers. Please see the clinic locations and availability below.
4. Following your treatment, contact your Human Resource Department to discuss your return to work.
